## **Canine Massage**

A massage has many benefits. A massage helps your dog physically, emotionally and mentally. Massages improve and enhance a large number of functions in the physical body. Two of the most critical functions are blood circulation and the animal's general well-being. A canine massage has “feeling-good” benefits, helps the overall health, energy and zest for life. A massage can relax your dog, soothe tired or sore muscles, ease pain from surgery or other injuries, help a dog suffering from ailments, as well as enhancing the health and well-being of the special dog in your life!
